Projects

Landing Page

- Designed a visually striking Landing Page using HTML and CSS.
- Incorporated vibrant colors to enhance the page's visual appeal.
- Created a professional-looking logo and navigation bar for seamless user experience.
- Developed an "About Us" section to introduce the brand's story and mission.
- Implemented a services section to showcase the range of offerings.
- Designed a footer with a copyright tag to ensure legal protection and professionalism.

Online Food Order site

- Crafted an engaging Online Food Order Site using HTML and CSS.
- Ensured an attractive and visually appealing design to captivate users.
- Made the site fully responsive, providing a seamless experience across devices.
- Implemented a services section to highlight menu offerings and specials.
- Created a client section to showcase customer testimonials and reviews.
- Included a contact section for user inquiries and feedback.
- Designed a footer to complete the site with essential information and links.

Calculator App

- Designed and developed a user-friendly Simple Calculator App using HTML, CSS, and JavaScript.
- Focused on creating an attractive and visually appealing design for an enjoyable user experience.
- Utilized HTML for the structure, CSS for styling, and JavaScript for the calculator's functionality.
- Ensured ease of use with an intuitive and friendly interface.
- A versatile tool for basic arithmetic calculations with a touch of style.
- Demonstrates proficiency in front-end web development with a practical and visually pleasing application.

Tic Tac Toe Game

- Created a Tic Tac Toe game using the C programming language.
- Implemented a user-friendly interface with options to play against another person or a CPU opponent.
- Focused on sleek and modern design elements to enhance the game's visual appeal.
- Dedicated significant effort to debugging and testing, ensuring flawless gameplay.
- A testament to precision and commitment in coding projects.
- Offers a thrilling gaming experience for both solo and multiplayer enthusiasts.

Word Conundrum Solver

- Created a Tic Tac Toe game using the C programming language.
- Implemented a user-friendly interface with options to play against another person or a CPU opponent.
- Focused on sleek and modern design elements to enhance the game's visual appeal.
- Dedicated significant effort to debugging and testing, ensuring flawless gameplay.
- A testament to precision and commitment in coding projects.
- Offers a thrilling gaming experience for both solo and multiplayer enthusiasts.
